

Love in us

Ocean of our history connects us
to generations and nations.
In waves, storms and rain
In thousands of visible drops Invisible atoms...

Then in one moment
we are suddenly united again
In a circle of life
on this beautiful planet we call Earth.

Desert is more a life then ever.
It changes its shape
with every wind, with every step,
it uncovers your path and hides your foot steps
to those you wish to be hidden.

New miracles are happening NOW
past should be appreciated,
to future we should look forward.

Love is where sand meets the Ocean,
where forms change,
where new life begins,
where love creates miracles like Horses.

ogether with Kuwait Ministry of Culture Arts and Letters and the Slovenian Embassy,

Alenka held expo LOVE IN US in Kuwait's Modern Art Museum on February 2014, attended by the Minister of Information, SH Salman Al Sabah, and Mr Yachi the Minister of Culture and Ambassador Robert Kokalj. The expo was later moved to the prestigious Kuwait Mall, Prestige in The Avenues.

Alenka succeeded in her vision to bring an Arab horse from Almeshal into the mall and took stunning photos, documenting her conviction that Arab horses are the greatest treasures, which, as such, are to be presented in the finest setting in the world.

The exhibition LOVE IN US is love story between Arab mare and Arab stallion – mare comes out of desert stallion out of the sea. Ocean they meet on the shore, kiss and have filly named Timeless love, who symbolized Arab horse blood around the world since almost in any horse somewhere down the line is connection with Arab horse. The ocean connects all the nations through the loving waves that lap up on our shores. Lipizzaners, themselves, were bred by Arab and Spanish horse 435 years ago in Lipica Stud farm in Slovenia.
